

Spinning? People *still* do that?

With the recent resurgence of fiber arts — more and more individuals have learned the art of spinning. Whether it be to gain a better appreciation for the yarns we use, a desire for a more custom product than can be found in store-bought yarns, or simply just because we find it enjoyable — handspinning has become a part of our daily routine.

Due to the increased popularity in the last few years, more resources than ever before are available to a beginning or experienced handspinner. Books, magazines, entire websites and forums all dedicated to the art of spinning — but nothing quite replaces the advantage of face-to-face meetings with other members, all of whom understand and share your interest.

Informal, but informative

We're all spinners, or at least interested in the fiber art of spinning. We're also weavers, felters, knitters, dyers, crocheters, or simply just enjoy creating yarn for its own sake.

Illinois Prairie Spinners was first organized in the fall of 1982 by several members of the Joliet Weavers Guild (now known as the Illinois Prairie Weavers). Our monthly meetings may have a theme or workshop, or may just be a spin-in, perfect opportunities for members to share techniques or seek assistance with problems. Past workshops have been held with renowned artists in the handspinning community including Patsy Zawistoski, Sara von Tresckow and Carol Huebscher Rhodes.

Meetings

Most meetings are held at the Winfield Public Library, near the intersection of Winfield and Roosevelt Roads. Occasionally, meetings are held at members' homes, but still in the general suburban Chicagoland area. We meet nine times a year, typically on the fourth Saturday of the month at 10:00 am. We typically do not hold meetings on either December or July.
